

## FbF<sup>®</sup> Inmate ID Bundle

for Offender Management

The FbF<sup>®</sup> Inmate ID Bundle is your one-stop way to do iris-based offender identification and management. This bundle includes FbF Inmate ID software and all the hardware you need to get started with enrollment and release of inmates.

### Benefits

- As quick and easy as taking a picture
- Streamlines re-enrollment
- Quick, easy subject re-enrollment with an audit trail
- Query records with text-based biographic searches and create reports
- Faster than fingerprint scans
- Not impeded by glasses or normal contact lenses
- Average search-and-match takes 1 second
- Reduces paper-based subject ID

### Bundle includes

#### Fulcrum Biometrics FbF Inmate ID Software Application

- Free remote installation support
- Free 1st year of maintenance and support provided by Fulcrum Biometrics

#### Iris Scanner

##### CMITech EMX-30 Dual Iris Imager (and base)

- Fully hands-free operation with motorized auto-tilt
- USB tethered for cost effectiveness
- Superior image quality for matching accuracy
- Intuitive subject positioning guides
- Easily integrated

The EMX-30 is a fully hands-free, dual iris imager intended for desktop, countertop and kiosk enrollment and authentication applications. This lightweight and compact system operates at a stand-off distance range of 32 to 35 cm. The EMX-30 features a simple and intuitive user interface, making it easy to use and integrate, even for subjects with minimal acclimation.

#### Laptop Computer

Dell (or similar)
