

Silencer Shop Secure Identity Documentation (SID) Bundle

This FbF® LiveScan-based system simplifies submission and tracking of paperwork for all NFA items; including Silencers, SBRs, SBSs, and Machine Guns. It's fully compliant with all current NFA/ATF rules, such as 41F. With the Silencer Shop SID Mobile Jump Kit, FFL/SOT license-holders to take advantage of Silencer Shop's systems to submit, track, and manage NFA paperwork, fingerprints, photos, signatures, CLEO notifications, and status tracking.

FbF® Livescan is FBI Appendix F certified to meet its Image Quality Standard (IQS) requirements for finger prints (EBTS. 500 ppi. WSQ compression). Livescan can be operated easily, even by first time users, because of its simple interface that prompts the operator through the steps of capturing fingerprint slaps and rolls.

Silencer Shop will:

Complete a full review and submission of Form 4 paperwork

Handle CLEO notification for all responsible persons

Print all fingerprint cards and photos on high quality laser printers that have been specifically approved for Silencer Shop by the FBI

Mobile and Web apps are available for customers to track status, update registration info, and even keep their photo up to date (which Silencer Shop also tracks)

Capture all signatures digitally using NFA/ATF approved processes

Provide support for Silencer Shop provided software
